INTRODUCTION

The National Clearinghouse for Bilingual Education has compiled this first Directory of Title VII Network Center Libraries to facilitate communications among the centers.

The directory is arranged by type of center--assessment and dissemination, training resource, materials development--subdivided alphabetically by state and alphabetically by the centers' names within states. For each library at least one contact person is included, the person in charge of the library or another contact, often the director of the center.

Information for the directory was obtained from each of the libraries included, and is given here exactly as provided. Although followup was performed for many of the entries, time did not permit followup on some libraries whose information is incomplete. Network centers which are not included in the body of the directory are listed in the Appendix.

The directory is scheduled for annual revision. If you have suggestions for the improvement of the second edition, please submit them to the Clearinghouse.
